Budget Highlights

2020-2021 Budget

Faced with the economic uncertainty created by the COVID-19 epidemic, the delaying of filing taxes and a potential \$5 billion shortfall, House Republicans responsibly advanced an initial 5-month budget until the necessary data on revenue sources is made available.

This stabilizing budget at approximately \$25.8 billion includes fully funding education and health care programs while providing the legislature time to rely upon real data to make the best decisions on the remainder of the 2020-2021 fiscal year.

With the exception to education funding, the budget freezes funding for all state programs. Before the pandemic hit, the economy was growing steadily and tax revenues were coming in higher than estimates and unemployment was at historic lows.

2019-2020 Budget

Up until COVID-19, thanks to Republicanled budgets, our revenues were up, and were traveling down a path to better protect taxpayers now and in the future.

- This budget put away \$317 million into the Rainy Day Fund.
- We passed legislation to ensure taxpayer dollars are accounted for and the administration can be held accountable for supplemental spending.
- Our record of holding the line on tax increases and spending is proven correct by the increased revenues. This budget continues to build on those ideals:
 - We are strategically investing while also backing up our legislative priorities with the funding to make an impact to attract and grow more job creators and familysustaining jobs.
 - We are committed to our agricultural and farming community, ensuring the Commonwealth's No.1 industry has what it needs to thrive.
 - We are strengthening victim rights, protecting communities and helping those battling addiction.
 - We remain committed to educating for success. We recognize that students find success in different

- ways. School funding is increased, but so is funding to support opportunities for students to thrive in private, charter and online schools.
- o Employers are searching for employees with the right skills for the modern workforce. We complement this search by promoting career and technical education expansion ideas so Pennsylvanians can get the training, skills and tools they need to succeed in careers that pay far more than minimum wage.

COVID-19 Pandemic

COVID Response

House Republican members are and have been working to pivot Pennsylvania from keeping Pennsylvanians safe and not overwhelming our health care system into keeping Pennsylvanians safe while reaching for economic recovery.

While working to help mitigate the COVID-19 health crisis, the fact is, the administration's draconian, cookie-cutter approach has created a COVID Economic Crisis throughout the state; leaving people worried about not having a job, going broke and losing their savings.

We recognize we are in pandemic and that *everyone* is making sacrifices – but we don't have to trade one pandemic for another – we are acting to find solutions to the long-term impacts – so we can recover, rebuild and grow Pennsylvania.

• HB 2388 (Rep. Natalie Mihalek, R-Allegheny/Washington): Would require the Secretary of DCED to immediately issue a wavier to the Governor's Business Closure Order for the following businesses who can adhere to certain mitigation measures: vehicle dealers, lawn and garden centers; cosmetology salons and barber shops; messenger service and agent service activities; animal grooming services; and manufacturing operations. (123-79).

- **VETOED** by the governor (Veto No. 5, 5/19/20)
- HB 2412 (Rep. F. Todd
 Polinchock, R-Bucks): Would
 require the Secretary of DCED to
 immediately issue a wavier to the
 Governor's Business Closure Order
 for legal services, residential and
 commercial real estate related
 activities. (134-68). VETOED by the
 governor (Veto No. 6, 5/19/20)
- SB 327 (Sen. David Argall, R-Berks/Schuylkill): Would amend the Administrative Code to require the Department of General Services (DGS) to conduct an annual survey of state facility usage; and creates four new articles relating to: **COVID-19 Emergency Statutory and** Regulatory Suspensions and Waivers; COVID-19 Debt Cost Reduction Review; COVID-19 Cost and Recovery Task Force; COVID-19 Emergency Regulatory Tolling; and COVID-19 County Emergency Mitigation Plan for Businesses. (108-94). **VETOED** by the governor (Veto *No.* 7, 5/19/20)
- SB 613 (Str. Bob Mensch, R-Berks/Bucks/Montgomery): Would require the governor to develop and implement a mitigation plan to allow businesses to operate during the disaster emergency, provided business comply with recommendations by the CDC and

- CISA. (107-95). **VETOED** by the governor (Veto No. 3, 4/20/20)
- SB 857 (Sen. Elder Vogel, R-Beaver/Butler/Lawrence): Would authorize health care providers to use telemedicine; and to require insurers to provide coverage and reimbursement for its appropriate use by participating network providers. (111-77). **VETOED** by the governor (Veto No. 4, 4/29/20)
- SB 1027 (Sen. John Gordner, R-Columbia/Luzerne/Montour/North umberland/Snyder): Would amend the Administrative Code of 1929 (Code) as it relates to the State Geospatial Coordinating Board; extends expiration date for certain temporary regulations; amends process for the issuance of death certificates by a local registrar; requires a report on implementation of 2020 General Primary Election; adds a new article relating to COVID-19 emergency statutory and regulatory suspensions and waivers; adds a new article relating to COVID-19 debt cost reduction review; extends expiration date for certain surcharge and fees; adds a new article pertaining to protected licensed operations during emergency. (109-93). **VETOED** by the governor (Veto No. 8, 5/29/20)

- HR 867 (Rep. Bryan Cutler, R-**Lancaster**): Would appoint a special committee to monitor the response of the Commonwealth to the COVID-19 emergency. (112-90). Adopted May 18, 2020.
- HR 836 (Rep. Russ Diamond, R-**Lebanon**): A concurrent resolution that would terminate in part the disaster emergency declaration of March 6, 2020 to the extent the order regulates the conduct of business operations deemed non-life sustaining differently than those deemed life-sustaining under the March 19, 2020 business closure order. (117-85). The Pennsylvania Supreme Court ruling in Wolf v. Scarnati et al., strikes down the bipartisan vote to end the ongoing emergency declaration. The ruling held that Article III, Section 9 (Pennsylvania Constitution) requires all concurrent resolutions be submitted to the governor for his approval or disapproval (July 1, 2020). The resolution was signed and delivered to the Governor (July 7). **VETOED** by the governor (Veto No. 10, 7/14/20). Veto override vote 9/2/20 (118-94).
- SB 1166 (Sen. Kim Ward, R-Westmoreland): Would amend the state Constitution to prohibit denying or abridging equality of rights

because of race or ethnicity; not require concurrent orders and resolutions on questions relating to the termination or extensions of emergency declaration to be presented to the governor before it takes effect; and limit a disaster emergency declaration to be in effect for no more than 21 days, unless extended by concurrent resolution by the Legislature, and prohibit the governor from issuing a new emergency declaration based upon the same circumstances without the approving passage of a concurrent resolution by the legislature. (115-86). Pamphlets Laws Resolution No. 4 filed July 16, 2020.

Economic Enhancers

#GOODJOBS4PA

House Republicans are looking at new pathways to careers with a greater focus on providing students with job skills *before* they leave high school. Students would benefit from knowing what kind of job or career they are headed for before taking on huge amounts of debt for a college degree they may never use.

While equipping students with workplace skills addresses the needs of one segment of the job-seeking population, our members are also offering solutions for unemployed adults, soon-to-be-released inmates and returning military veterans.

Ultimately building an effective workforce system is essential to economic development. Simply, you need people to be successful as they work in the jobs that are created. Our caucus is working on all sides of the issue, creating a world-class workforce and growing world-leading industries, which will lead to the next generation of great companies and employees calling Pennsylvania home.

Protecting Pennsylvanians

Protecting Victims

In support of crime victims, House Republicans are out front, taking action to strengthen the protections for victims of crime. Just as those accused of a crime have certain rights, we need to ensure crime victims are treated with dignity and respect throughout the entire criminal justice process.

We support efforts to allow victims of crime to participate in the criminal justice system. Victims and survivors deserve the protection of our criminal justice system and the tools to help them confront and testify against their abusers.

Human trafficking harms adults and children of all ages and demographics. House Republicans have taken action to build upon our groundbreaking laws pertaining to human trafficking to promote measures guaranteeing the safety of victims, protecting their privacy and making it safer for them to testify against their abusers.
